**SECTION 2
DOCKAGE & MOORAGE**

| ITEM# | APPLICATION |
|--------------|---|
| 200 | <p style="text-align: center;"><u>DOCKAGE - GENERAL RULES</u></p> <p>Berth Assignment: Berth assignment will be issued at the sole discretion of POA to the owners, agents or operators of vessels for use of a specific berth by a specific vessel. No vessel will be permitted to berth at a wharf or terminal facility of POA without a prior berth assignment being granted by POA. Applications for berth assignments must be made as far in advance of the arrival of vessel as possible and must specify arrival and departure dates and the nature and quantity of the cargo to be loaded or discharged. The Application for Vessel Berth Reservation Form is shown on page 34 of this Tariff.</p> <p>Basis for Computing Charges: Dockage charges shall be based on the overall length of the vessel as published in the most current edition of Lloyd's Register of Shipping at the time the vessel is berthed. Should length figures not be available from that source, POA may accept information from the vessel's official papers or measure the vessel.</p> <p>Dockage Period – How Calculated: The period of time upon which dockage will be assessed shall commence when the vessel is made fast and until departure. No deduction will be allowed for Sundays, Holidays or because of bad weather or other conditions. When a vessel is shifted directly from one berth to another operated by POA, the total time at such berths will be considered together in computing the dockage charge.</p> <p>In calculating dockage, billing is based on twenty-four (24) hour periods. For billing purposes, partial periods will be rounded up to the next full period. POA, at its own discretion, may charge vessels less than 105 feet LOA (upon proper notification and moorage permission) by ¼ of the 24-hour clock.</p> <p>No Warranty as to Depth of Water at Berth: When accepting a request and issuing a berth assignment, POA makes no warranty, either expressed or implied, as to the suitability of the berth or available depths of water alongside. POA makes every effort to maintain adequate water depths, but they vary continually because of the influence of tidal changes, volume of river flow, and weather conditions. Further, variances in vessel draft, ballast, amount of cargo to be loaded or unloaded and the water depth alongside the berths makes it incumbent upon the vessel's interest to take soundings immediately upon docking and at intervals thereafter to insure the safety of the vessel. POA, upon request of the Master or vessel's owners, charterers, operators, or agents, will supply information on water depths alongside berths based upon most recent soundings.</p> <p>Responsibility for Vessel Delay, Shifting or other Costs Because of Water Depth: POA will assume no responsibility for vessel delay, shifting expense or other costs when the vessel's interest deems it prudent, for the purposes of ensuring the safety of the vessel, to interrupt loading and/or shift to deeper water during shallow water periods.</p> <p>Vacate Berth as Ordered: POA reserves the right to order a vessel to vacate the berth when not actually engaged in loading and/or discharging operations.</p> |

| 200 (continued) | <p>(1) Whenever an order to vacate a berth is made by POA under these rules and said order is refused or not complied with in the time specified, POA may assess a penalty dockage rate of \$974.00 (4%) per hour for each hour the vessel remains on berth after such an order has been issued or tendered to the vessel.</p> <p>At its option, POA may affect the removal of a vessel from berth at the expiration of the time period specified in the order to vacate with all risks, liability and expense for the vessel's account. The alternatives permitted POA under these rules shall be a choice solely at the discretion of POA.</p> <p>(2) A vessel that does not work to its fullest capacity to complete loading or unloading operations within the allotted time, or a vessel arriving earlier or later than agreed, or a vessel requiring more time at POA than agreed, will be adjusted to the extent possible consistent with advance commitments to other vessels made by the terminal.</p> <p>When congestion or other commitments make it necessary for a vessel to complete and clear its berth, the vessel on berth will be requested to work overtime at its own expense until loading or discharging has been completed, after which it will promptly vacate the berth. Any vessel refusing to work overtime shall vacate the berth upon written order from POA. When a vessel loses its right to a berth by refusing to work overtime, such vessel will forfeit its turn on the berth and will remain at anchor until the next available berth.</p> <p>Emergency Fire Suppression Births: Subject to the approval of the City of Astoria Fire Chief, POA, and the United States Coast Guard Captain of the Port, vessels with shipboard fires may be authorized to move to the POA's designated on-shore fire suppression berth at the Face of Pier One. Only ships which pose an acceptable risk to facilities, personnel and nearby ship traffic would be authorized to use the fire suppression berth.</p> <p>All actual and indirect costs incurred by a vessel because of a fire utilizing any berth covered by this Tariff shall be paid by the vessel utilizing the berth.</p> <p>The vessel acknowledges responsibility for damage arising out of its shipboard fires and shall hold POA harmless from and indemnify POA for any and all damage, liability, settlements, loss, costs and expenses in connection with the fire and with any action, suit, or claim resulting or allegedly resulting from the fire or its suppression at POA facilities, except for that resulting from Port negligence, or that of the POA's employees or agents.</p> <p>Accepting Responsibility for Payment: Pursuant to Port of Astoria Tariff Item No. 125 in all instances where "Party Responsible for Payment" listed above has not established credit worthiness with the Port and where responsibility for Port charges has not been accepted by another credit worthy entity, the Port shall require payment of cash in advance or posting of acceptable security prior to vessel berthing.</p> |

LABOR SERVICE**

LABOR SERVICE GENERAL RULES

Labor Rates Subject to Change: The rates named in this Tariff, additions, revisions, or supplements thereto are based on ordinary traffic and labor conditions. If and when these conditions change because of demand of labor for increased wages, strikes, congestions or other causes not reasonably within the control of POA, resulting in increased cost of service, rates are subject to change without notice or the charge for service may be assessed on the labor rate basis.

Checking of Freight: Checking of freight is defined as the service of counting, tallying and checking cargo against appropriate documents for the account of the vessel, or other person requesting same. Checking does not include grading, sealing, surveying, weighing, measuring, marking, segregating, samplings or supplying any information that cannot be obtained by visual inspection of the package, case or other shipping container.

Responsibility Limited: In performing the service of checking, POA will accept no responsibility for concealed damage or condition of packages, cases or other containers whether or not receipts issued so state.

Payment of Labor: Where checkers, wharf gangs, lift drivers, linesmen, watchmen or other wharf labor is employed by or through POA at the request of the carrier, shipper, consignee or other party, the time of such labor involved will be carried on the payroll of POA and the Port will bill the party responsible at the rates as provided herein.

Standby or Waiting Time: When labor is ordered for a specific time and is on the job, ready for work, or having started work, and is delayed for a period of or exceeding fifteen (15) consecutive minutes at any time during that work, such delays being caused through no inability or fault of POA, standby or waiting time for the workers will be assessed at actual wages paid plus 65 percent.

Services Requiring Labor for a Minimum Number of Hours: When POA is required to furnish labor for a specific service and such service is completed before the expiration of the minimum time allowed under labor's working agreements and awards, the parties authorizing such work shall be assessed for the time of such labor which accrues after the specific service is completed and until the end of the minimum time allowed at actual wages paid labor plus 65 percent.

Labor Rate Time Periods: Labor rate time periods will be defined as follows:

Straight Time – Labor performed between the hours of 08:00 and 17:00, Monday through Friday.

Overtime – Labor performed between the hours of 00:00 and 07:59, Tuesday through Friday; labor performed between the hours of 17:01 and 23:59 Monday through Thursday.

Holiday and Weekend Time – Labor performed between the hours of 17:01 Friday to 07:59 Monday; labor performed on any holiday as defined in this Tariff.

Item No. 1000

Issued: January 1, 2009

Conditions of Berth Reservation: Effective: January 1, 2009

In accordance with Federal Maritime Commission Docket 83-48, Alaska Maritime Agencies Inc., et al. v. Port of Anacortes, et al. and Tariff Rule 125 in the Port of Astoria Tariff No. 11, amendments and reissues thereto, all applications for vessel berth reservation shall be made in the form specified by the Port, and will require the timely filing of the financial responsibility information shown on page 2 and 3, completed in accordance with, and otherwise governed by, the terms and conditions set forth below:

A. Except where and to the extent waived pursuant to Paragraph B below, terms of payment for all applicable Port charges shall be cash in advance. A cash deposit or acceptable security in an amount equal to 125 percent (125%) of the estimated applicable charges will be required to be posted with the Port, six days prior to the vessel's scheduled

arrival, or at such other time as may be authorized or directed by the Port, but in all cases in advance of actual services rendered. In any case in which a cash deposit has been posted, any excess thereof, after satisfaction of all applicable port charges, shall be promptly refunded by the Port to the party posting same.

B. The Port may waive the requirement of cash in advance as to all or any category or categories of its anticipated port charges when the party responsible for such charges has been identified by the berthing agent to the satisfaction of the Port; and

1. That party responsible has established credit worthiness acceptable to the Port; or
2. Adequate security, acceptable to the Port, in an amount equal to 125 percent (125%) of the applicable estimated port charges has been posted; or
3. The agent requesting the berth, or another entity, in each case acceptable to the Port as credit worthy, has personally accepted financial responsibility for applicable charges.

C. The vessel agent or other person requesting reservation of a berth ("berthing agent") shall, as a part of the berth reservation process, provide to the extent of his or her knowledge all information called for on the Application for Vessel Berth Reservation form respecting the vessel, its estimated arrival and departure, amount(s) and type(s) of cargo to be loaded/discharged, and estimate of amount of each category of port charges, as enumerated, and party responsible therefor. The submission of this form, signed by the berthing agent, shall constitute the berthing agent's attestation as to the accuracy of the information made available to the berthing agent at the time of submission; and the berthing agent held personally liable to the Port for any financial loss suffered by the Port as a result of the agent's failure to so report accurately.

D. Should the berthing agent, subsequent to submission to this form, receive information which materially differs from the information previously provided, and which information the agent reasonably believes is not equally known to the Port, it shall immediately notify the Port and, if requested by the Port, promptly file an amended Supplement to Application for Vessel Berth Reservation with the Port.

E. All estimates of port charges are subject to approval and/or adjustment by the Port.

F. The Port shall, promptly after receipt of this form, advise the berthing agent as to (1) its approval or adjusted estimate of port charges, and (2) whether posting of cash or security is required for any one or more categories of such charges and the amount thereof.

G. In addition to the terms for berth reservation and establishment of financial responsibility as set forth herein, requests for berth reservation and assignments of berths shall otherwise be in accordance with all local rules and regulations established by the Port.
